## SIEGWERK OFFERS INK, HEART &amp; SOUL TO ITS CUSTOMERS

Ink, Heart & Soul – our company philosophy incorporates what our customers experience every day. We know our business and produce inks and individual solutions in close cooperation with our business partners. We are steeped in tradition, yet practice-oriented and with state-of-the-art technology. With more than 175 years of experience, Siegwirk commands a profound product knowledge and expertise for many printing methods. Our actions are market-driven – or even drive the market, which is proven by our many patents. With currently 4,000 staff in more than 30 country organizations we are able to supply and support every customer anywhere in the world.

The precondition for such a performance on a sustained basis is a unique kind of reliable and goal-oriented people. Their motivation and commitment are the basis for our international growth, which is supported by institutionalized sharing of expertise across borders. This puts us in the position of being able to provide the best possible solution for the customer. And even to anticipate the demands of tomorrow.

For us, these are all ingredients of the Siegwirk formula for your success.

SOME LIKE IT HOT

**SIEGWERK**

## UNIVERSUS

**The versatile:**

The inks belonging to this top series show their special strengths in their versatile use. Tack and tack behavior are optimally balanced. The good-natured water behavior offers complete safety, even with changing dampening. Conclusion: first-class printed results on all substrates.

## MODULUS

**The specialists:**

As a modular system with a long mileage and excellent print-out, with or without alcohol, MODULUS MAG inks offer the optimal solution for MAGazine printing on coated paper, MODULUS COM for COMMERCIAL printing on calendered paper and MODULUS NEWS for printing on newsprint (NEWSprint).

## TURBUS

**The speedy:**

Obtaining perfect results on high-speed presses is no problem with TURBUS inks. State-of-the-art binders minimize misting. TURBUS inks, similar to the MODULUS inks, are available in the MAG, COM and NEWS qualities for optimal printed results.

## DUOTEC

**The two-purpose application:**

Ink series for hybrid printing machines, absorbent papers and alternating coldset and heatset drying. With no additional ink supply required, DUOTEC ensures no loss of time or additional costs. Perfect dot stand and excellent runnability further increase the printing efficiency of jobbing and similar products.

## TELEC

**The high-endurance inks for telephone directory printing:**

Perfect production running and print-out on a wide range of papers with varying color contents due to maximum water-stability.

## STYLEC

**The high-gloss:**

With specially designed inks, STYLEC shows the optical effects of glossy coated paper to best advantage and reliably guarantees brilliant printed results. Typical characteristic: brilliant gloss for the most demanding specifications.

## PERMEC

**The robust:**

Whether in the press, at finishing or during transport – PERMEC products are the best solution for ink-optimized rub resistance. Advantage: perfect quality even under high mechanical stress.

## EQUILE:

the fountain additive for all heatset inks for the fast reaching of the optimal ink/water balance. Suitable also for printing without alcohol.
