SIEGWERK

06/18/2020 Einblicke Insight

Always up to date with our Ink Safety Portal

Explore the newest articles on our Ink Safety Portal and stay updated with all our topics concerning ink safety and safe food packaging.

All our latest news give you bundled knowledge amongst others on crucial related topics, international regulations or actual subjects as sustainability – always in order to keep you updated with all topics concerning safe food packaging! Make sure to read our new ePaper and learn about microplastics, the partnership between Siegwerk and the Food Safety Alliance for Packaging and the updated regulations in India! Interesting and relevant for your matters may also be our white papers, interactive graphics or the video statements of our product safety experts – don't miss them.

Our knowledge transfer is based on proactive transparency and our responsibility regarding the manufacture of safe products and solutions to ensure the highest level of consumer safety. That's why we started the Siegwerk Ink Safety Portal: to inform you, to keep you updated and to provide full transparency – get ready to explore all the background information!

Explore our newest articles:

- Microplastics
- Food Safety Alliance for Packaging and Siegwerk
- Food packaging regulations in India, China and South East Asia
