Food packaging safety: Siegwerk interview at Interpack 2011

New regulations have been proposed or introduced recently to ensure safer application of printing inks on food packaging.

Food packaging safety: Siegwerk interview at Interpack 2011

Instead of a European approach authorities proceed on national level, especially Switzerland and Germany, with significant impact on the whole value chain. At Interpack 2011, Dr. Jörg-Peter Langhammer, VP Global HSE + Sustainability was interviewed by FoodProduction Daily.com on the topic.
