New Job Tool: All roads lead to Rome, many roads lead to Siegwerk

With the new Job Tool, Siegwerk has launched a new way to access career opportunities at Siegwerk. Located in the Career section on the Website, the new tool is easy to use with several possibilities to filter for fitting vacancies. This function makes it a lot simpler for applicants to take the first step towards a career with Siegwerk, one of the leading printing ink manufacturers worldwide.

Siegwerk products can be found everywhere in supermarkets all over the world: on food packaging, sanitary products, newspapers, catalogs, and magazines etc. As a family-owned international company, Siegwerk is not only renowned for its high quality products but also for long-term partnerships with customers – and employees, who sometimes even celebrate their forty-year-anniversary with the company.

Worldwide, the Siegwerk HR departments frequently publish interesting job opportunities. "With our new Job Tool interested visitors can find a job offer in

their country or their respective field of expertise much faster,” says Christiane Seichter, Head of Corporate HR Development with Siegwerk.
