SIEGWERK

04/26/2013 Press release Pressemitteilungen Company

# New on the Siegwerk homepage: HSE information on the Siegwerk website now also available in Spanish

The Global HSE + Sustainability team has upgraded the product safety content on the Siegwerk website.

Following increasing customer demand the documents are now available for download in four languages. With this extension Siegwerk is increasing the transparency and on-demand customer communication. Siegwerk's customers and end users can now access the respective customer documents, such as papers on product safety. in English, German, French and Spanish.

Under 'Customer Segments' documents can be downloaded on HSE topics such as:

- Food packaging safety
- Ink industry exclusion lists of toxic substances
- Frequently inquired substances, such as Bisphenol or Phthalate
- Compostable and biodegradable packaging
- Ethics, social responsibility and sustainability at Siegwerk
