SIEGWERK

03/14/2012 Press release Pressemitteilungen Company Location

New service for Siegwerk customers: HSE information documents available for download

The documents in the new database cover all pertinent routine enquiries from our customers about product safety, regulatory compliance and end-user specifications. They largely apply to all Siegwerk products and are meant to quickly satisfy many of our customers' information needs.

New service for Siegwerk customers: HSE information documents available for download

You are asked to state compliance of your printed article to REACH? Or required to confirm compliance with the regulations for food packaging, for cosmetics, for toys (i.e. standards EN 71-3, ASTM F963), or for electronic devices (RoHS directive)? Or you are asked to confirm that your printed products contain

- no Substances of Very High Concern (SVHC)
- no toxic heavy metals
- no phthalates
- no bisphenol A

- no mineral oils
- no polycyclic aromatic hydrocarbons (PAH's)
- no brominated flame retardants
- no organotin compounds of concern (TBT's, DBT's, MBT's),
- no polychlorinated biphenyls (PCB's),
- no nanoparticles

We help to make this easier for you, your application technology contact at Siegwerk is available anytime.
