New Siegwerk site for Benelux market officially inaugurated

Siegwerk has opened its new site for the Benelux market in Bornem, Belgium. With a recent opening ceremony for customers and the media the premises have officially been inaugurated. “As decided in 2006, our investing in this newly opened site is a clear commitment to Bornem and the Benelux market,” says Siegwerk CEO Herbert Forker.

Bornem mayor Jozef Van Eetvelt is pleased that the company stays in his commune as economic factor and global player. “We welcome Siegwerk’s commitment to the region and look forward to a good cooperation in the future,“ the mayor states.

After almost two years of restructuring Siegwerk strives to deepen the good relationships to existing customers. “We’ve overcome substantial challenges. The new offices and technical support center enable us to offer our Benelux customers the accustomed service, quality and short lead-time support,” says Gerrit De Visscher, Site Manager Siegwerk Benelux. One major goal is to further develop customer relations by offering the whole product range: inks and solutions for flexible packing, labels, sheetfed, UV, paper and board and liquid food packaging.
