

# FACTS & FIGURES

For the fiscal year 2016

## Consistently good quality

Siegwerk has created a global production and service network to give business partners what they need the most: consistently good quality. The basic colors and varnishes are therefore manufactured in a standardized process at our 15 "Centers of Excellence" around the world. The raw materials and intermediate products are as close to identical as possible, laying the foundations for consistent product quality. In more than 50 Blending Centers, around the world, we ensure that the printing inks are subsequently tailored to meet the individual customers' requirements.

## Corporate Social Responsibility

It has always been part of the Siegwerk philosophy to be a responsible employer and good neighbor. We look after our employees and their families, ensure occupational health and safety as well as product safety, and see environmental protection as an element of our daily business. But we also keep an eye on the areas surrounding our sites in the same way. So Siegwerk employees demonstrate their commitment all over the world with many social projects to promote the education and training of children.
