Siegwerk – Printing inks and coatings with Heart and Soul

Siegwerk is an international, market leading manufacturer of printing inks and coatings for packaging of any kind as well as magazines and catalogs. Headquartered near Cologne, Germany, the company is still family-owned. With more than 190 years of experience, Siegwerk commands a profound product knowledge and expertise for many printing methods.

Our philosophy “Ink, Heart & Soul” incorporates what our customers experience every day. We are steeped in tradition, yet practice-oriented with state-of-the-art technology.

Sales 2020

Europe remains the most important region for Siegwerk. Compared to 2019 (adjusted for foreign exchange effects), North- and Latin-America showed positive sales growth while Europe (in the Print Media-business) and Asia (related to the pandemic) showed a slight decline.

FACTS & FIGURES

For the fiscal year 2020

Consistently good quality

Siegwerk has created a global production and service network to give business partners what they need the most: consistently good quality. The basic inks and varnishes are therefore manufactured in a standardized process at our 15 “Centers of Excellence” around the world. The raw materials and intermediate products are as close to identical as possible, laying the foundation for consistent product quality. In more than 50 Blending Centers around the world, we ensure that the printing inks and coatings are subsequently tailored to meet our individual customers’ requirements.

Corporate Social Responsibility

It has always been part of the Siegwerk philosophy to be a responsible employer and good neighbor. We look after our employees and their families, ensure occupational health and safety as well as product safety, and see environmental protection as an element of our daily business. But we also keep an eye on the areas surrounding our sites in the same way. Siegwerk employees demonstrate their commitment all over the world with many social projects to promote the education and training of children.
