

Declaration of non use of certain glycol ethers and glycol ether acetates

In the manufacture of **all** products supplied by Siegwirk, the following ethylene glycol ethers and glycol ether acetates or raw materials containing these solvents are not used as intentionally added ingredients. However, the presence of traces of these substances in the product coming from raw material impurities, the process or as adventitious contaminants cannot be excluded.

In particular, the following substances are excluded:

- Ethylene glycol monomethyl ether/EGME, 2-methoxyethanol, methylglycol (CAS 109-86-4)
- Ethylene glycol monoethyl ether/EGEE, 2-ethoxyethanol, ethylglycol (CAS 110-80-5)
- Ethylene glycol monomethyl ether acetate/EGMEA, methylglycol acetate; 2-methoxyethyl acetate (CAS 110-49-6)
- Ethylene glycol monoethyl ether acetate/EGEEA, ethylglycol acetate; 2-ethoxyethyl acetate (CAS 111-15-9)
- 1-Propylene glycol-2-monomethyl ether/1PG2ME, 2-methoxy-1-propanol (CAS 1589-47-5)
- 1-Propyleneglycol-2-monomethyl ether acetate/1PG2MEA, 2-methoxy-1-propylacetate (CAS 70657-70-4)
- Ethylene glycol dimethyl ether/EGDME, 1,2-dimethoxyethane (CAS 110-71-4)
- Diethylene glycol dimethyl ether/DEGDME (CAS 111-96-6)
- Triethylene glycol dimethyl ether/TEGDME (CAS 112-49-2)
- Diethylene glycol monomethyl ether/DEGME (CAS 111-77-3)

We can assure you that, according to present scientific knowledge, potential traces of the above mentioned glycol ethers and their acetates in our products, if any, are far below legal thresholds.
