

Declaration of non use of Asbestos

In the manufacture of **all** products supplied by Siegwirk, asbestos, or raw materials containing asbestos, are not used as intentionally added ingredients.

The presence, however, of traces of this substance in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded¹.

¹ However, we proactively monitor supplier data on impurities in all raw materials likely to contain traces of asbestos. We can assure you that the presence of asbestos traces even in mineral raw materials is extremely unlikely, and traces of asbestos in our products, if any, are by orders of magnitude below 0,1%.
