

Declaration of non use of

Dimethyl fumarate

In the manufacture of all products supplied by Siegwerk, dimethyl fumarate (CAS 624-49-7) or raw materials containing dimethyl fumarate are not used as intentionally added ingredients.

The presence, however, of traces of this substance in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded¹.

¹ However, we proactively monitor and/or retrieve supplier data on impurities in raw materials likely to contain traces of these substances. We can assure you that, according to the present scientific knowledge, potential traces of these substances in our products, if any, are well below 0,1%.
