Declaration of non-use of Persistent, Bioaccumulative, and Toxic (PBT) Chemicals under TSCA Section 6(h)

In the manufacture of all products supplied by Siegwerk the following persistent, bioaccumulative, and toxic (PBT) Chemicals under TSCA Section 6(h) or raw materials containing these substances are not used as intentionally added ingredients:

- Decabromodiphenyl ether (DecaBDE; CAS 1163-19-5)
- Phenol, isopropylated phosphate (3:1) (PIP, 3:1; CAS 68937-41-7)
- 2,4,6-Tris-tert-butylphenol (2,4,6-TTBP; CAS 732-26-3)
- Hexachloro-1,3-butadiene (HCBD; CAS 87-68-3)
- Pentachlorothiophenol (PCBT; CAS 133-49-3)

However, the presence of very minute but analytically detectable traces of these substances in the product originating from raw material impurities, or as adventitious contaminants, cannot be fully excluded. We pro-actively monitor and/or retrieve supplier data on impurities in raw materials likely to contain traces of these substances. We can assure you that, according to the present scientific knowledge, potential traces of these substances in our products, if any, are far below 0.1%.

The information in this document reflects Siegwerk’s policy and commitments. This statement is valid without signature.
