

Declaration of non use of

Arsenic and arsenic compounds, antimony and antimony compounds such as antimony trioxide, of red phosphorus and beryllium oxide

In the manufacture of **all** products supplied by Siegwerek, arsenic and arsenic compounds, antimony and antimony compounds such as antimony trioxide, as well as red phosphorus and beryllium oxide, or raw materials containing them, are not used as intentionally added ingredients.

The presence, however, of traces of this substance in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be excluded¹.

¹ However, we proactively monitor and/or retrieve supplier data on impurities of the above mentioned substances in all raw materials likely to contain such traces. We can assure you that potential traces in our products, if any, are, as a rule, well below 0,1%.

The information in this document reflects Siegwerek's policy and commitments. This statement is valid without signature.
