

## Declaration of non use of

### **Melamine and structurally related compounds such as Cyanuric acid, Ammeline and Ammelide**

In the manufacture of **all** products supplied by Siegwerk, melamine (2,4,6-triamino-1,3,5-triazine, CAS 108-78-1) and the named structurally related compounds cyanuric acid (CAS 108-80-5), ammeline (CAS 645-92-1) and ammelide (CAS 645-93-2), or raw materials containing these substances, are not used as intentionally added ingredients.

The presence, however, of traces of these substances in the product coming from raw material impurities, from the process or as adventitious contaminant cannot be fully excluded. We proactively monitor and/or retrieve supplier data on impurities in raw materials likely to contain traces of these substances. We can assure you that, according to the present scientific knowledge, potential traces of these substances in our products, if any, are well below 0,1%.

The information in this document reflects Siegwerk's policy and commitments. This statement is valid without signature.
