REACH Compliance

REACH (Registration, Evaluation, Authorisation and Restriction of Chemicals), the European Regulation on chemicals and their safe use (EC No 1907/2006), entered into force in 2007.

All three registration phases have now passed (2010, 2013 and May 2018) for substances manufactured or imported into the European Union in quantities of 1 tonne or more per year (unless exemptions apply).

We are glad to confirm that all European Siegwerk products are in compliance with REACH, meaning that all substances contained in our products have been registered or are exempted from registration requirements.

The confirmation provided above is valid only if you purchase the product(s) from
