For the fiscal year 2025

Consistently good quality

Siegwerk has created a global production and service network to give business partners what they need the most: consistently good quality. The basic inks and coatings are therefore manufactured in a standardized process at our 16 “Centers of Excellence” around the world. The raw materials and intermediate products are as close to identical as possible, laying the foundation for consistent product quality. In more than 40 Blending Centers around the world, we ensure that the printing inks and coatings are subsequently tailored to meet our individual customers’ requirements.

Corporate Social Responsibility

It has always been part of the Siegwerk philosophy to be a responsible employer and good neighbor. We look after our employees and their families, ensure occupational health and safety as well as product safety, and see environmental protection as an element of our daily business. But we also keep an eye on the areas surrounding our sites in the same way. Siegwerk employees demonstrate their commitment all over the world with many social projects to promote the education and training of children.
