

VEGA VIBRANT+

Owing to our commitment towards consumer safety and sustainable development, we present to you 'VEGA', our range of mineral oil-free inks. It is an endeavour from all of us at Siegwirk to significantly reduce the usage of mineral oil in the packaging industry and make inks safe for all.

VEGA Vibrant+ is a state of the art, 'base colour' series designed to meet all the requirements of the packaging industry. A wide range of base colours that can match any pantone or special shade, very high

colour strength and stable ink-water balance are some of the many qualities that make this series so special.

Due to oxidative drying mechanism and usage of special resin system, this series is always able to outperform during post printing operations. It consists of a range of light fast and high chemical resistance colours making it ideal to perform on different machines under varied climatic conditions.

BENEFITS

- ✓ Very high colour strength
- ✓ More than 20 base colours to cover a wider gamut of special / pantone shades
- ✓ No fanal colour is part of series which makes this series the safest for food & pharma packaging
- ✓ Excellent roller stability & ink transfer properties
- ✓ Very wide ink-water balancing window which make this series most robust to perform on wide range of machines and press conditions
- ✓ Higher rheology with medium tack and long flow make this series suitable to perform at latest high-speed presses (16-18 K /Hr.)
- ✓ Excellent and consistent dot sharpness in half tone area and constant colour intensity in solid and colour trapping area

VEGA NATURE LT

Owing to our commitment towards consumer safety and sustainable development, we present to you 'VEGA', our range of mineral oil-free inks.

It is an endeavour from all of us at Siegwirk to significantly reduce the usage of mineral oil in the packaging industry and make inks safe for all.

In order to meet the requirements of mid-end market segment where runnability of the ink on versatile substrate is a major factor, **VEGA Nature LT** is deemed the perfect fit. Ideal for printing on materials

such as low pick board and paper, this comes with fast drying and colour trapping properties irrespective of the colour sequence.

BENEFITS

- ✓ Moderate colour strength
- ✓ Meets ISO-2846-1 colour compliance
- ✓ Lower in tack with moderate viscosity, making this series the most suitable for versatile substrates including low pick board and paper
- ✓ Excellent trapping properties
- ✓ Suitable to perform on all types of offset printing machines
- ✓ Excellent combination of fast setting and drying properties to make this series suitable for short run jobs
- ✓ Moderate light fast colours
